

Long-lasting spring force.

The coils of CLAAS ORIGINAL tines create a (rotational) spring effect, enabling the machine to evade any foreign objects. This ensures a consistently high level of crop throughput, from the start to finish of a long working day.

Your benefits:

- Minimal material fatigue
- Good, stable crop intake
- Flexible adaptation on contact with foreign objects

High tensile strength.

The special multistage manufacturing process complies with stringent CLAAS quality standards. Wherever they are used, CLAAS tines ensure a consistently high crop throughput.

Your benefits:

- Long service life during the harvest
- High flexibility, combined with robustness

Shot-blasted and powder-coated.

The special powder coating gives the tines reliable protection against harmful environmental influences. Additionally, targeted shot-blasting with an extremely high shot flow assures the durability of CLAAS ORIGINAL tines. And the use of top-grade spring steels is a further assurance of CLAAS quality.

Your benefits:

- Long service life
- Extremely reliable

Customized.

CLAAS ORIGINAL parts are precision-manufactured, high-quality series components for CLAAS machines.

Reliable.

CLAAS ORIGINAL parts have a longer life cycle and protect the machine from mechanical failure.

Efficient.

CLAAS ORIGINAL parts are renowned for their high cost-effectiveness, and quality that pays off.

Why CLAAS ORIGINAL tines?

ORIGINAL tines ensure a consistently high crop throughput, with delicate handling. They enable a smooth crop flow for balers, loading wagons, choppers, swathers and tedders. Thanks to many years of manufacturing experience, CLAAS ORIGINAL tines are perfectly tailored to the CLAAS system as a whole. They guarantee:

- Long-lasting spring force
- High tensile strength
- High-quality spring steel

ORIGINAL parts offer you more than just the right dimensions. The materials and manufacturing methods we use are fundamental to the reliability and long service life of our machines.

Our ORIGINAL parts are manufactured from materials of an exceptionally high quality and to precise CLAAS specifications on the basis of proven CLAAS expert knowledge. Each and every part is tailored to the machine as a whole.

CLAAS ORIGINAL Parts.

Customized. Reliable. Efficient.
